

WORKER'S COMPENSATION BOARD OF BRITISH COLUMBIA

REVIEW DIVISION

Statistical Overview – 2nd Quarter 2004

The Review Division

The Review Division was created in 2002 as a result of amendments to the *Workers Compensation Act* (the "Act") that made significant changes to the workers' compensation appeal process. These changes, which took effect on March 3, 2003, established two levels of review or appeal for most decisions made by the Workers' Compensation Board (the "Board") under the *Act*.

The first level is internal, involving a review by a Review Officer in the Review Division and the second level is to the independent Workers' Compensation Appeal Tribunal ("WCAT").

The Review Division is a key component of the WCB's overall quality management process. It plays a significant role in quality adjudicative decision-making by providing:

- a) expert and independent reviews of decisions;
- b) timely resolution of requests for review; and
- c) Information and feedback about decision-making to the operating divisions.

Purpose of this Report

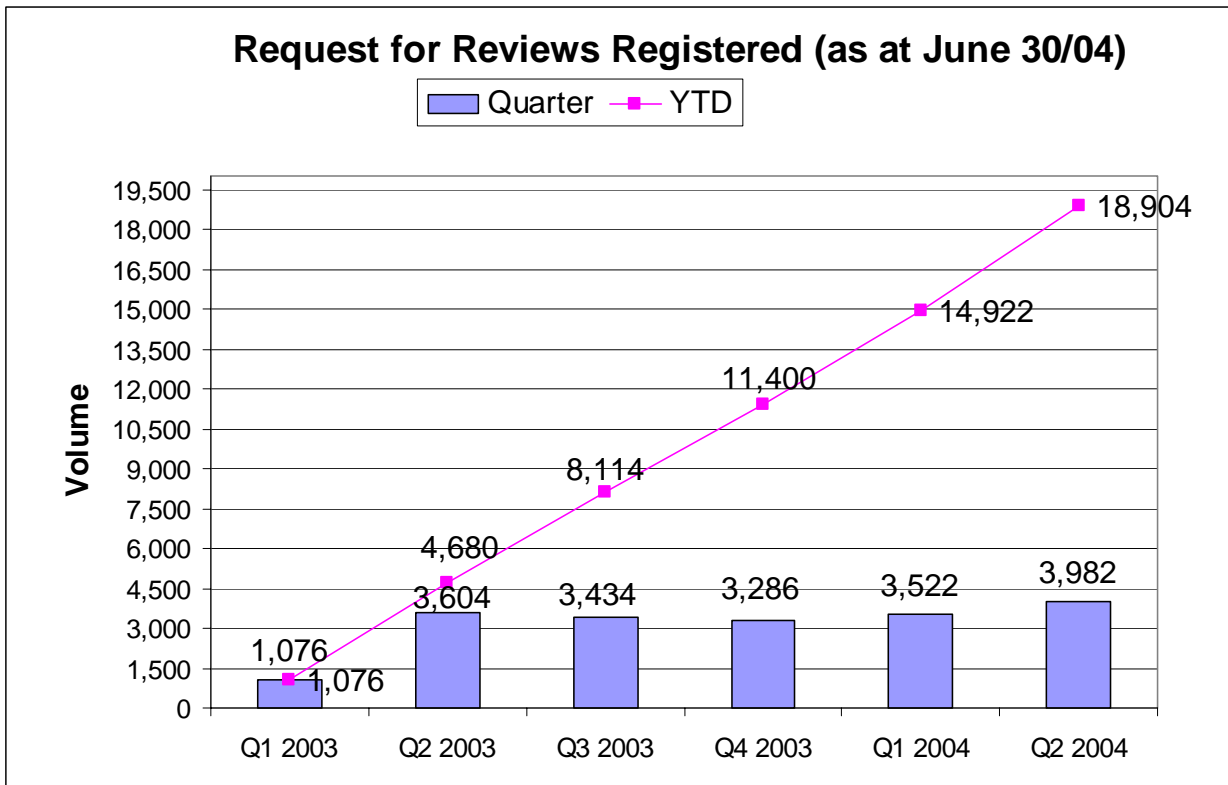

This report is part of an ongoing series of statistical overview reports which will be issued at the end of each quarter. The report includes 3 sections:

- A. Incoming Request for Reviews – Information about the volume of request for reviews received by the Review Division
- B. Completed Reviews – Information about the volume and outcome of completed reviews
- C. Completed Issues – Information about the volume and outcome of issues decided in completed reviews

This report is intended primarily for readers who are already familiar with the WCB decision making environment and the Review and Appeal processes. Additional information about the Division and the WCB can be found at www.WorkSafebc.com or by contacting the Review Division directly by phone at 604-214-5411.

A. Incoming Requests for Review

Reviews may be requested on decisions concerning Compensation, Prevention or Assessment matters. A very small percentage of decisions made by the Board are reviewed. It is estimated that in the course of their duties, WCB officers make approximately two million reviewable claim-related decisions a year. Either party may request a review on a decision on a claim-related matter. This creates a potential for almost 4 million decisions a year that could be subject to a review.

Comments:

- Improvements in timeliness of registering requests for reviews resulted in an increase of reviews registered in Quarter 2, 2004.

B. Processing Status of Requests for Reviews

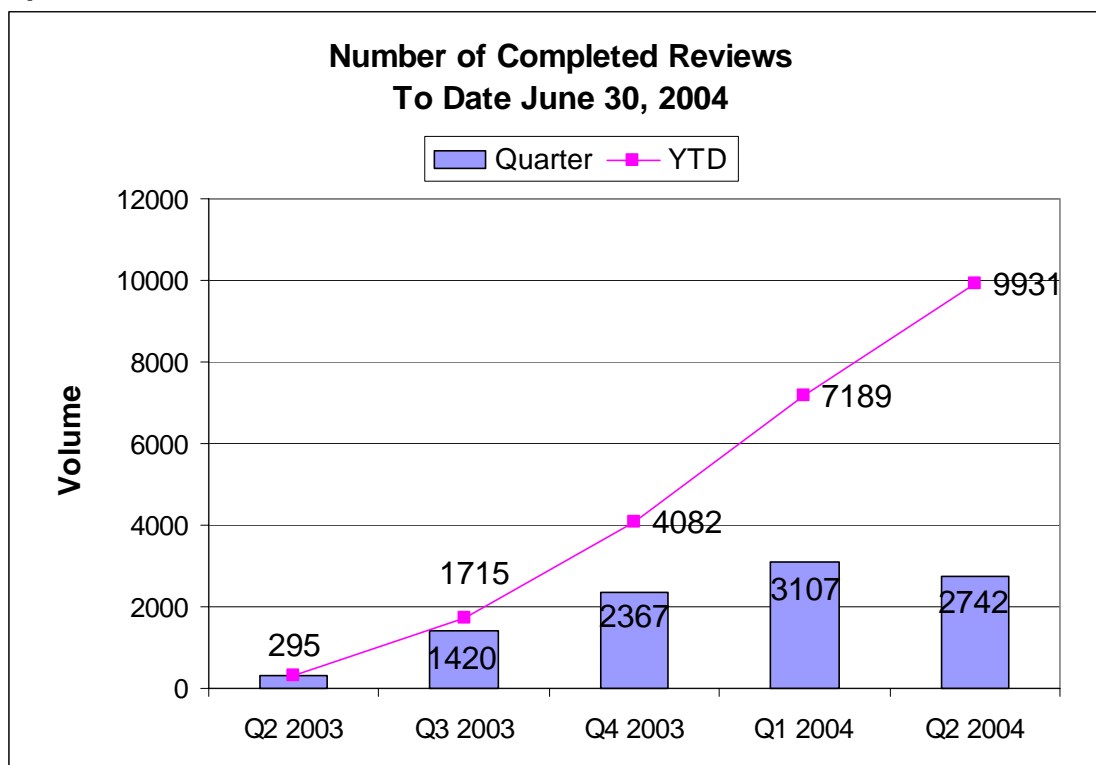

Status	Quarter 2	
	2003*	2004
Outstanding Balance Beginning of Period	855	4,356
Registered During Period	3,604	3,982
Allowed Application Extension of Time	13	190
Less: Rejected	581	689
Withdrawn	133	361
Completed	295	2,742
Outstanding Balance end of Period	3,463	4,736

* The review and appeals system change arising from Bill 63 did not come fully into effect until March 3, 2003.

Comments:

- The drop off rate of requests for reviews year to date has been 26%. This is comprised of 17% requests for reviews rejected (the primary reasons for rejection include late submission requests, no underlying decision to review, and request outside of Review Division jurisdiction) and 9% reviews withdrawn before the review is completed.

C. Completed Reviews to Date

Comments:

- The volume of reviews completed climbed steadily through to late first quarter of 2004 as more review decisions became due and as the Review Division increased its capacity and gained experience. The Division is keeping pace with the workload of decisions due.

D. Review Outcomes

Each request for review usually relates to a specific decision letter from one of the WCB operating divisions. As shown in the table below, one of four possible outcomes is coded to each completed review:

Outcome for Completed Reviews*	Quarter 2	% of Q2 Total	YTD 2004	% YTD 2004

Total	2,742	100%	5,849	100%

*See appendix for definitions.

E. Issue Outcomes

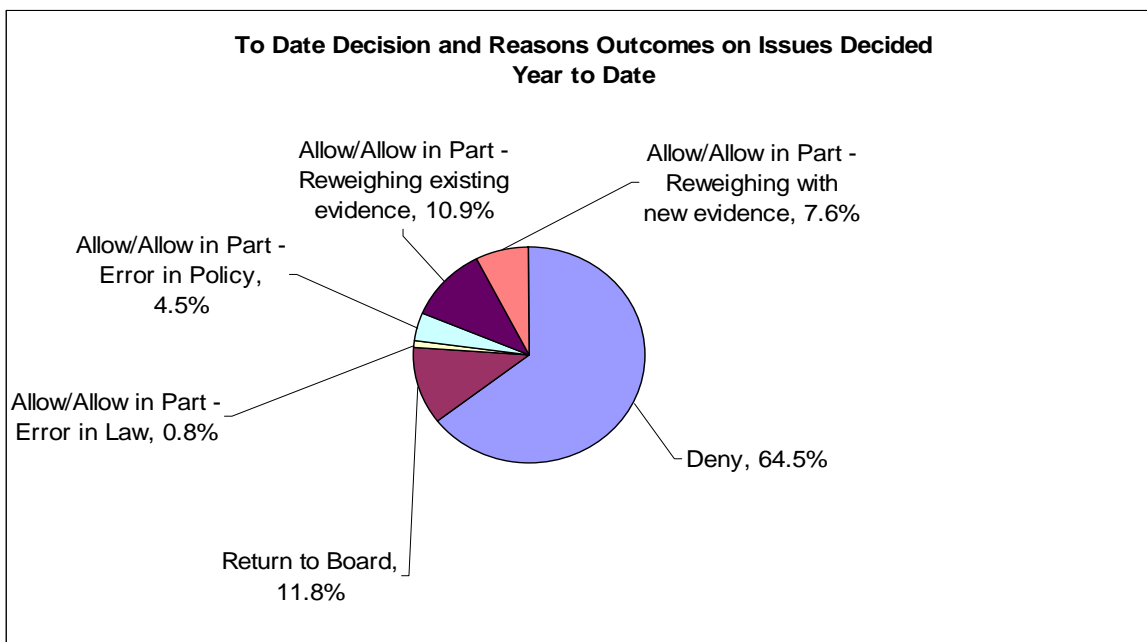

I. Overall Issue Outcomes

Within each decision letter reviewed, there will be one or more issues under review. The Review Division provides statistics on decisions concerning the overall reviews and on the issues under review. As shown in the table below, one of four possible outcomes is coded to each completed issue:

F. Appendix

1) Linkage of Decisions, Reviews, & Issues

II) Definition of Terms

The Review Division of the Workers' Compensation Board (the "Board") has authority under sections 96.2 to 96.5 of the Workers Compensation Act (the "Act") to review decisions in specific cases made by officers in the Board's Compensation Services, Finance (Assessment decisions), and Prevention Divisions.

Pursuant to Section 96.2(3) of the Act, a Request for Review must be filed within 90 days from the date when the Board decision or order was made. Board decisions are normally communicated in a letter or other document that includes an explanation of the reasons for the decision. This letter or document should be submitted with the Request for Review form when initiating a review of the decision to the Review Division.

With each decision letter, one or more issues may be identified and each of these issues may be reviewed. Upon review, Review Officers will determine an outcome for each of the issues. Outcomes of issues may be one of the following four types:

Allow	The Review Officer disagrees with the determination made on an issue covered by a decision or order under review.
Allow in Part	The Review Officer disagrees in part with the determination made on an issue covered by a decision or order under review.
Deny	The Review Officer agrees with the determination made on an issue covered by a decision or order under review.
Return to Board	A referral of a decision or order back to the Compensation Services, Finance or Prevention Division of the Board so that the Division may make a further determination on one or more issues.

For each issue with the outcome of allow, allow in part, or return to Board, a reason must be provided for why. Reasons provided can be one or more of the following:

Error in law	The decision was inconsistent with the Act, a regulation under the Act, or some other law or regulation.
Error in policy	The decision was inconsistent with the published policy of the Board.
Reweighting existing evidence	The decision was changed because the Review Officer reached a different conclusion on the same evidence that was before the initial decision maker.
Reweighting with new evidence	The decision was changed because the Review Officer reached a different conclusion as a result of significant new evidence that was not before the initial decision maker.

Although each review may deal with one or more issues, an outcome for the whole review must be stated using the terms set out in section 96.4(8)(a) of the Act. Outcomes on each review may be one of the following:

Confirm	The Review Officer agrees with the determinations made on every issue covered by a decision or order under review, though not necessarily with the reasons for those determinations.
Cancel	The Review Officer disagrees with the determinations made on every issue covered by a decision or order under review and determines that the decision should be withdrawn without a new decision being substituted.
Return to Board	A referral of a decision or order back to the Compensation Services, Finance or Prevention Division of the Board so that the Division may make a further determination on one or more issues.
Vary	Any decision by a Review Officer other than one that confirms or cancels a decision or order. This covers situations where the Review Officer <ul style="list-style-type: none"> (a) agrees with the determination made on one or more, but not all, the issues covered by a decision or order under review, or (b) disagrees with the determinations on all issues, and decides to substitute a new decision or order.
