

#171 (hand)

I'm an employee at Roscoe's Pub & Grill in Ft. St. John B.C. I personally think W.C.B. is in the wrong for trying a second time putting in the Non-Smoking ban in Bars & Pubs. The biggest problem is that it is going to put bar owners out of business. The employees are going to be laid-off which brings up unemployment in Ft. St. John. Most Bartenders/Waitresses make a living off tips and if there are no customers, nobody makes any money. I think the restaurants could have non-smoking & people could live with that. but as far as the bar & Pubs. Whatever happened to freedom of speech? Don't we have a ~~1~~ Say?
