

ATTN: WCB.

June 12/00

I am a staff member of Rosco's Pub & Grill in Ft. St. John, B.C.

The impact of a no smoking law in our establishment would be detrimental to both the business and me. The reason being: Customer patronage drops, the business loses money and then lay me off as a result.

I am personally a smoker therefore second hand smoke does not interfere in me doing my job.

I really feel that WCB should make that each business lists the risks on the job and the applicant can decide from there whether or not they choose to work there.
